

Northern Magic Fund for
International Development

Dear Friends,

We have come to the end of the month of September 2005. It is the first month of the third and last term of the year, which started on 5th September 2005.

University students

Our only student in university, Joram George Ouma, has been on vacation for one month. He is due to resume his studies in the second week of next month October, 2005.

He is pursuing a diploma in Clinical medicine at the Kampala University – Uganda. Next month will mark the start of his third and final year at the university.

Joram has expressed a desire to pursue a degree course at the same university after his diploma course. Due to limited funds, we, at Northern Magic Fund could only commit ourselves to pay for his diploma course. He is, therefore appealing to all well-wishers to come to his assistance towards realizing his dream.

We have, also been receiving numerous requests for assistance from students who have qualified to join university or other middle-level colleges. Unfortunately, and again due to limited funds, we have not been able to respond favourably to their requests. In the circumstances, we invite any willing individual sponsors to come to the aid of such cases.

Other students

All other students in both elementary and high school have settled down to work. This being the final term of the year, we are confident that they will put in their best effort to achieve better grades.

Renovation projects

We are in the process of identifying the next school to benefit from your generosity towards this initiative. We have a number of proposals that we are considering.

Our past efforts have already put smiles on many faces. We are confident that as we endeavour to put our best foot forward in all we do, many more, hitherto desolate, faces will brighten up.

Lastly, I would like to thank you all for your unwavering support.

Sincerely,

Andrew.
